EDUCATION

1. B. V. Sc. & A.H. From Punjabrao Krishi Vidyapeth, Akola
2. M. V. Sc. (Veterinary Physiology and Biochemistry) From Punjabrao Deshmukh Krishi Vidyapeth, Akola.

WORK EXPERIENCE:

1. Livestock Development Officer for 12 years
2. Assistant Professor, Veterinary Physiology since 2008
1. Changes in milk constituents associated with udder health status of cow
The present investigation was carried out to study the effect of different udder health status of cows on level of certain milk constituents like lactose, protein, citric acid, chloride, sodium and Potassium.
2. Leptin, Insulin and Blood Metabolites Interaction During Late Gestation and Early Pregnancy In Murrah Buffalo
A study was carried out to assess the levels of Glucose, Insulin, Leptin and haematological parameters during late gestation and early lactation and their correlation in Murrah buffaloes was determined.
3. Age related changes in haematology and plasma biochemical profile in purnathadi buffalo
Haematology and plasma profile was studied in young and adult Purnathadi buffaloes to investigate the age associated changes in blood constituents.

Achievements

Published 03 monographs

1. "Berari - An important goat germplasm of vidarbha" published by Director, National Bureau of Animal Genetic Resources, Karnal
2. Osmanabadi Goat – Goat Genetic Resources of India
3. Dangi Cattle – Cattle Genetics Resources of India
Published Booklet on "Berari Goat"
